EDUCATION

Universidad Nacional de Trujillo — **Trujillo, Peru**
Bachelor's Degree in Systems Engineering — *March 2016 – February 2021*

PROFESSIONAL EXPERIENCE

Joinnus — **Lima, Peru**
Frontend Developer, Semi Senior 1 — *January 2025 – Present*

- As part of the frontend team, build and improve the ticket buying and management experience on a platform used by hundreds of thousands of users.
- Contributed to the redesign of the core platform and turned Figma designs into production code with the internal component library **@joinnus/ui**.
- Contributed to building the **Cashless** and **Cashless-BoxOffice** systems: virtual wallet, points management and purchase of products and services.
- Implemented the checkout **Add-ons** step (store, reusable components, product synchronization and error handling) and landing pages for Alianza Lima.
- Work in agile sprints with Jira alongside design and backend, shipping features and bug fixes.
- Ensure the quality of each release with unit tests (Vitest) and browser flow validation, using **Claude Code** to plan and write code.

  Technologies: *Nuxt 3, Vue 2/3, Pinia, TypeScript, Tailwind CSS, Vitest, Git, Jira, Claude Code*

Freelance — **Trujillo, Peru**
Web Developer and Consultant — *April 2022 – Present*

- **Díaz & Rebaza Abogados:** corporate website for a law firm with SEO and WhatsApp and social media integration (dcrrabogados.com).
- **Dra. Diana Zuñiga:** dental practice landing page with WhatsApp appointment booking and SEO (dradianazuniga.pe).
- **Nuevos Pasos NGO:** built and updated the organization's WordPress website, deployed on its own hosting (nuevospasos.org).
- **World System S.A.C.** (Apr 2022 – Aug 2024): as a consultant, built web systems for clients in mining, accounting, automotive, job board and security sectors, and the company's corporate website (wssac.com).

  Technologies: *Nuxt, Vue 3, Node.js, Prisma, Tailwind CSS, MySQL, WordPress (Elementor, Divi, WooCommerce)*

Ingeniust — **Lima, Peru**
Software Engineer and Support Developer (on-demand) — *May 2024 – June 2025*

- Developed a trade fair management system for the agricultural sector in Costa Rica.
- Developed an online assessment system for students in a virtual classroom setting, and provided production support and bug fixing.

  Technologies: *Next.js, Prisma ORM, MySQL, Git*

SIGMA — **Lima, Peru**
Frontend Developer (contract) — *September 2023 – December 2024*

- Contributed to the refactoring of a web system for companies in the automotive sector.

  Technologies: *Vue, Git*

Comunidad CCA — **Trujillo, Peru**
Frontend Developer (contract) — *January 2023 – April 2023*

- Contributed to the refactoring of the Bullbet sports refereeing web system, its admin system and the academy website.

  Technologies: *React, MySQL, Git*

Janaq: Digital Performance and Innovation — **Trujillo, Peru**
Web Developer Analyst (contract) — *March 2021 – October 2022*

- Handled requirements for the NGR brand e-commerce and developed web projects for the Rockys group.
- Built websites for food brands: **Bembos, Popeyes, ChinaWok, Rodizio and Punto Scharff**.

  Technologies: *Vue, Nuxt, Prisma, MySQL, Git*

AI PROJECTS

- Co-developed **jnns** with a teammate: a zero-dependency Node.js CLI that sets up test cases from the terminal, bypassing the UI, used by the frontend team; it integrates with Claude Code skills to validate them in the browser.
- Designed **Claude Code skills and plugins** to validate flows in the browser, generate unit tests, review code and migrate UI components.

SKILLS AND LANGUAGES

Programming: TypeScript, JavaScript, C#, SQL
Frontend: Vue 3, Nuxt 3, React, Next.js, Pinia, Tailwind CSS, HTML5, CSS3, SCSS, Figma-to-code
